A large, stylized illustration of a coin with a thick black border. The coin is light gray with a white outline. In the center of the coin, the equation  $1+2+3$  is written in a large, white, bold, sans-serif font. The numbers and plus signs are slightly shadowed, giving them a 3D appearance as if they are floating on or attached to the coin. The coin itself has a subtle shadow on the surface below it.
